Week at a glance: one possibility

First Friday
(30 min.)

- *Use direct whole-class instruction in the form of a mini-lesson to introduce the focus skill for the upcoming week.
For Week 1, the focus skill is using a capital letter to start a sentence and an end mark to end it. Refer to the Mini-Lesson section for strategies, songs, and activities for your lesson.

Monday/Day One
(5-10 min.)

- *Students complete the Day One practice task to follow up on your mini-lesson.
- *Students and teacher discuss the guided practice items using an overhead projector or interactive whiteboard.
For teachers with interactive whiteboards, a new DLI for Smartboards™ CD is available which correlates with the print edition and includes all Day One-Day Four student practice items. It is an optional support for teachers with SMART or Promethean boards, their competitors, or LCD projectors.
- *Students correct the errors on their practice items.

+ (30 min.)
